

NATIONAL AND KAPODISTRIAN  
UNIVERSITY OF ATHENS

Athens, November 9<sup>th</sup>, 2010

T.C. Theoharides, M.S., Ph.D., M.D.  
Professor of Pharmacology,  
Internal Medicine and Biochemistry  
Director, Molecular Immunopharmacology  
and Drug Discovery Laboratory;  
Suite M&V-208  
Tufts University School of Medicine  
Tufts Medical Center  
136 Harrison Avenue  
Boston, MA 02111, USA

Dear Professor Theoharides,

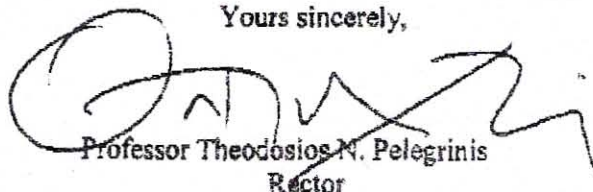

It gives me great pleasure to inform you that the Senate of the University of Athens at its session of 4-3-2010 unanimously decided to confer upon you the title of doctor honoris causa. The initial proposal had been submitted by the School of Medicine and it is our way of asserting the significance and impact of your work in the community of scientists.

The University of Athens, by conferring this title, which is the highest honorary title awarded by our Institution, wishes to honour you, a distinguished scientist in your field who through outstanding work has bestowed praise and credit on Medicine and more specifically on Pharmacology, Internal Medicine and Biochemistry.

It will be a great honour for the University of Athens and me personally to welcome you in Athens on January 25<sup>th</sup>, 2011 for the awarding ceremony.

With my best wishes,

Yours sincerely,

Professor Theodosios N. Pelegrinis  
Rector
